Digital Signature System

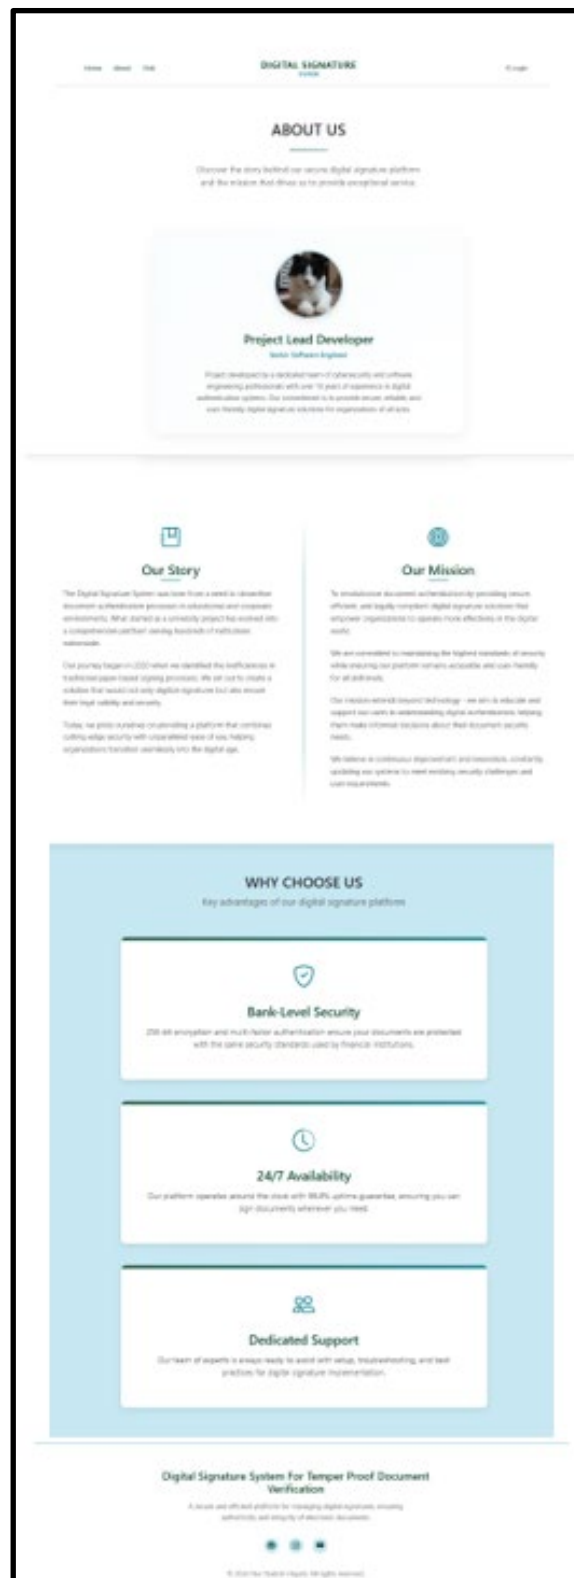

HOME PAGE

1. Main

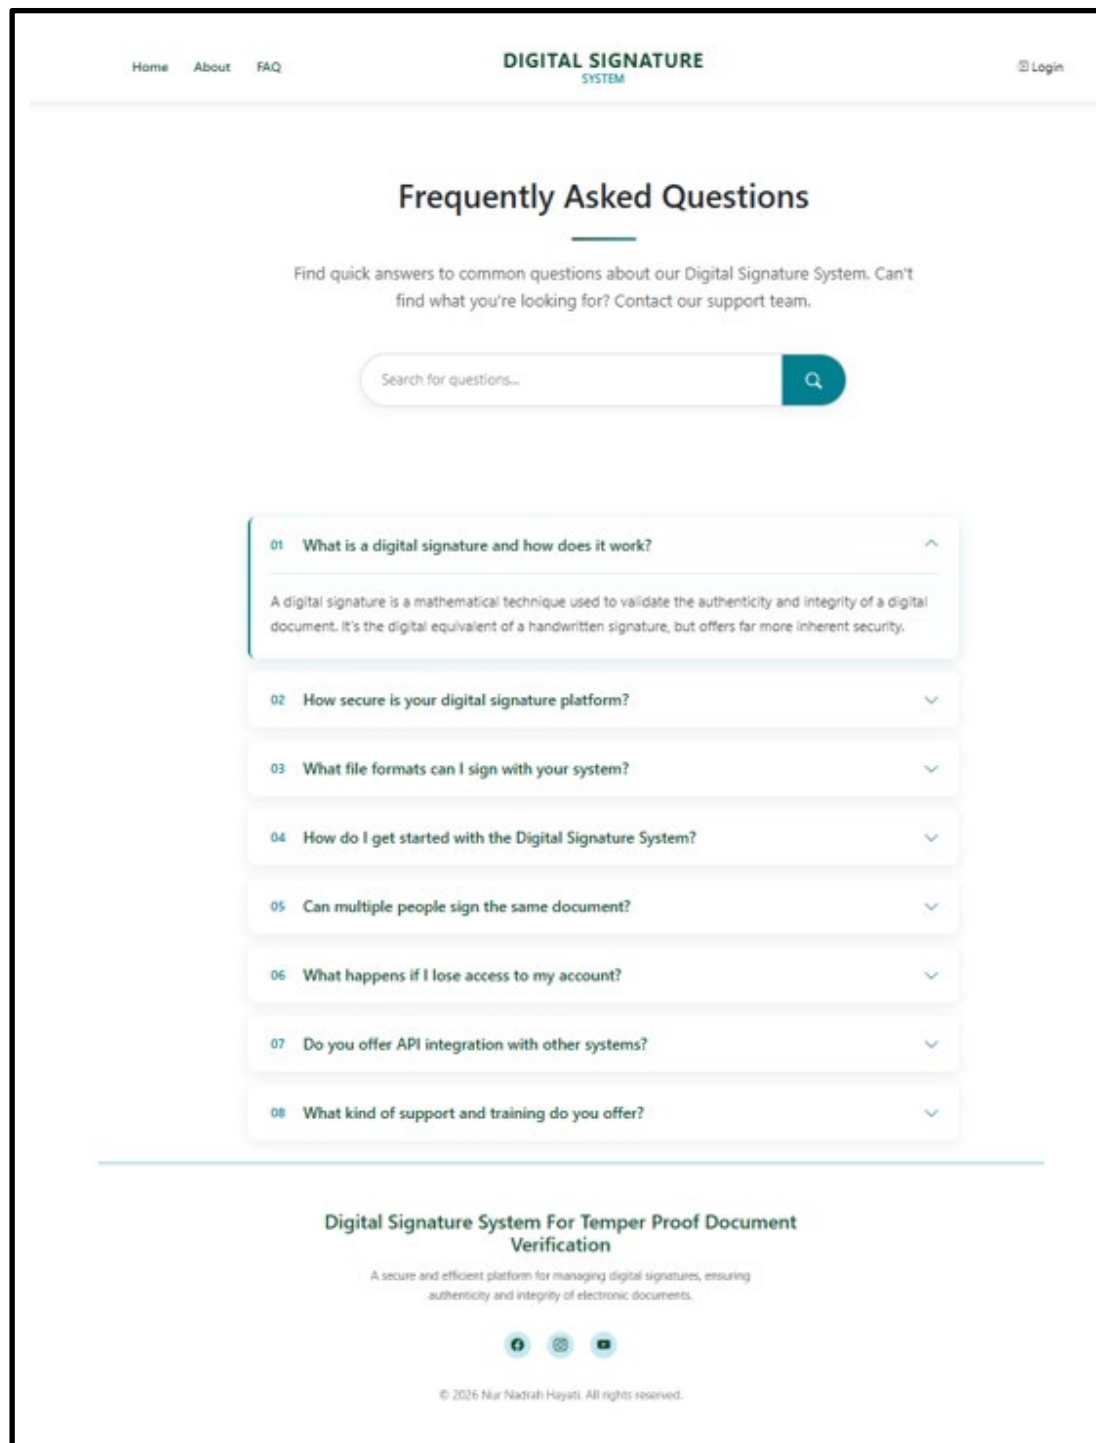

The first page users see when visiting the system URL. It displays the system name, a brief description of the Digital Signature System, and a Register Here button for new users. If you are already logged in, the button will change to Go to Dashboard and redirect you directly. The page also includes a navigation bar at the top with links to About Us, FAQ, Login, and Register.

2. About Us

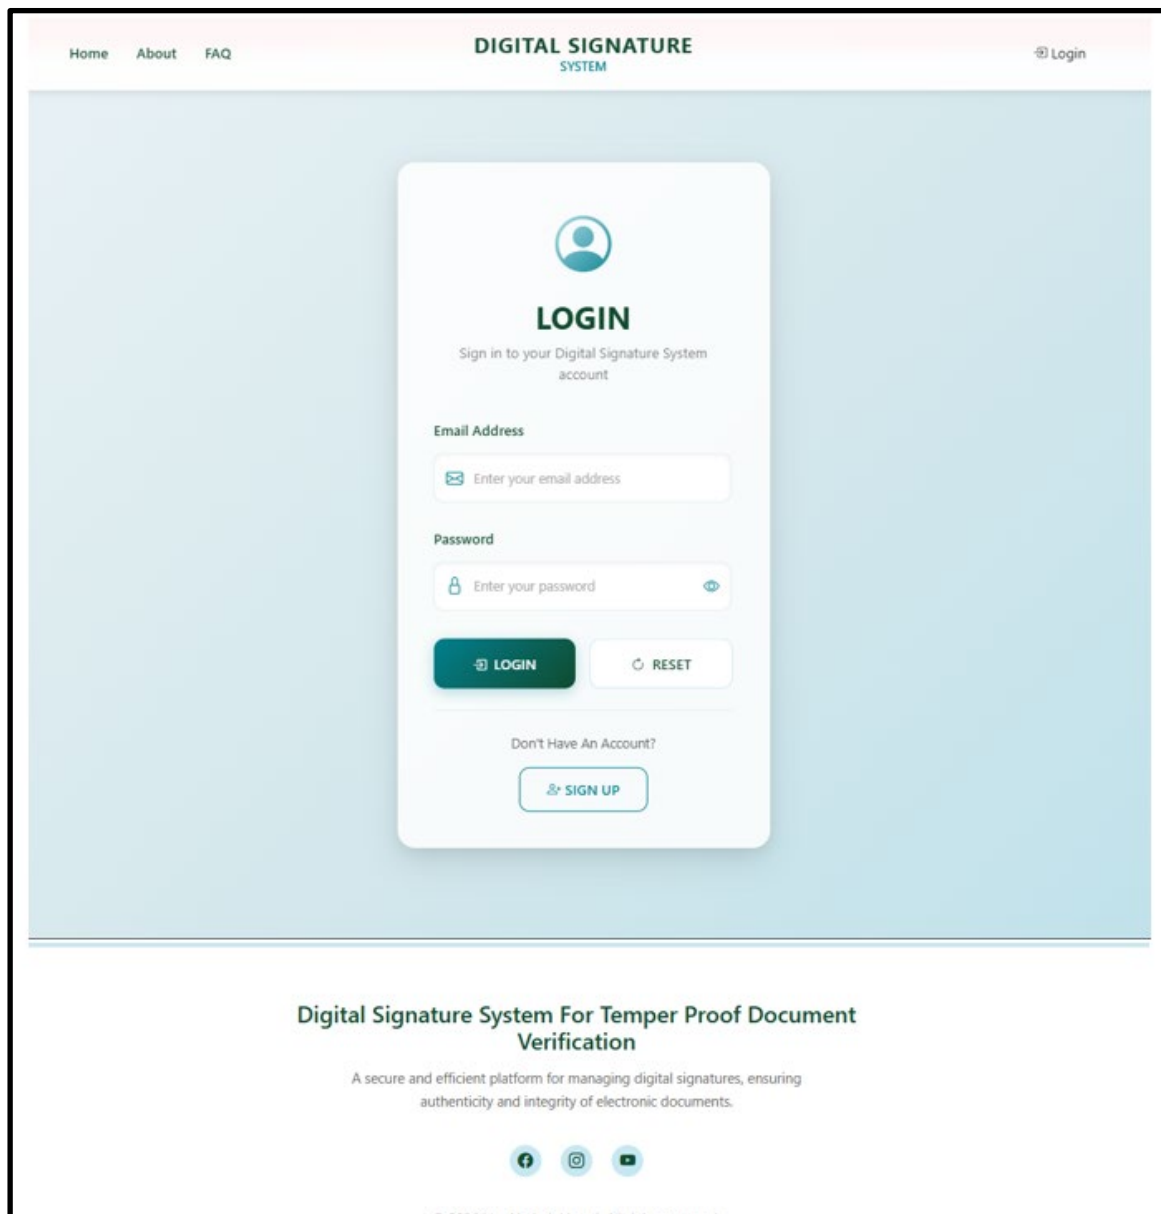

Provides background information about the Digital Signature System, its purpose, and the institution it was developed. This page is publicly accessible and requires no login to view.

3. FaQ

Lists commonly asked questions about the system, covering topics such as how document verification works, what the QR code does, and how to use the system. This page is publicly accessible and intended to help new users understand the system before registering.

4. Login

The screenshot displays the login interface of the Digital Signature System. At the top, a navigation bar includes links for Home, About, and FAQ, alongside a Login button. The main heading is "DIGITAL SIGNATURE SYSTEM". The central focus is a white login card with a blue user icon and the title "LOGIN". Below the title, it prompts the user to "Sign in to your Digital Signature System account". The form contains two input fields: "Email Address" with a placeholder "Enter your email address" and "Password" with a placeholder "Enter your password" and a toggle for visibility. Below these fields are two buttons: a green "LOGIN" button and a white "RESET" button. At the bottom of the card, there is a link "Don't Have An Account?" and a "SIGN UP" button. The footer section features the title "Digital Signature System For Temper Proof Document Verification", a descriptive tagline, and social media icons for Facebook, Instagram, and YouTube.

Allows registered users to access the system. Enter your registered email address and password then click Sign In. If your credentials are correct, you will be redirected to the Dashboard. If you do not have an account yet, click the Register link at the bottom of the form.

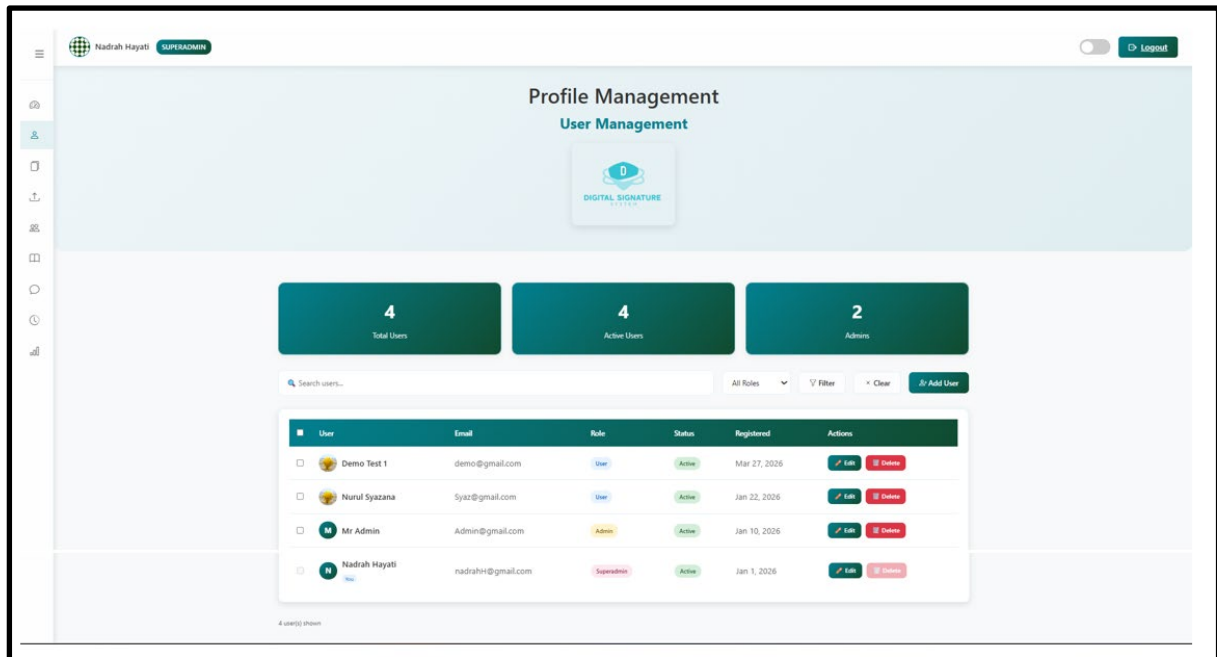

5. Register

Allows new users to create an account. Fill in your full name, email address (Gmail, Yahoo, Outlook, or any valid email), and a password that meets the requirements — minimum 8 characters and at least one special character.

Click Create Account and you will be automatically logged in and redirected to the Dashboard. All new accounts are assigned the User role by default. Admin and Superadmin access must be granted manually by the system administrator.

SUPERADMIN

1. Managing All Users Profile

Click Profile from the sidebar — this opens the User Management panel

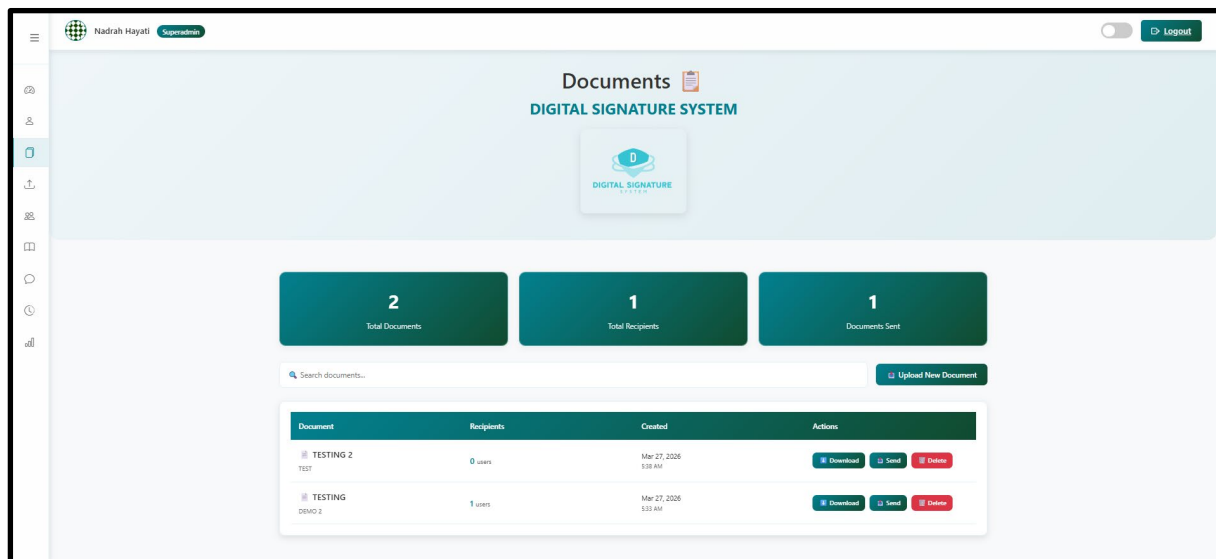

Use the search bar or role filter to find specific users

Click  Edit on any user to update their name, email, role, status, or password

Click  Delete to permanently remove a user (you cannot delete your own account)

To add a new user manually, click Add User, fill in the details, and submit

2. Managing Files

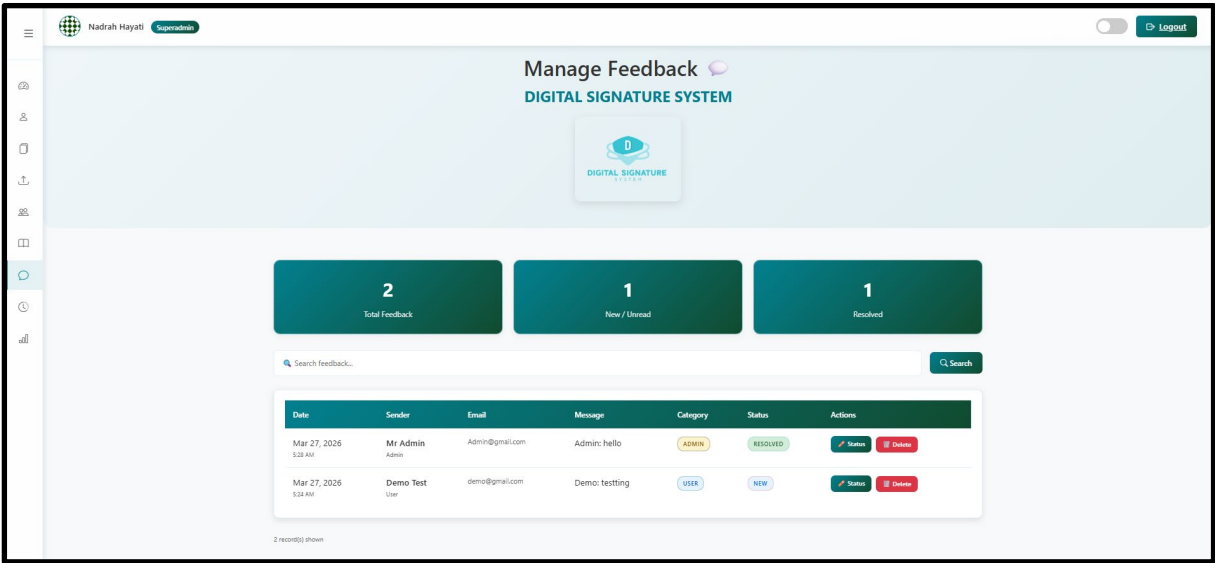

Click File List from the sidebar to view all uploaded documents

Use the search bar to find specific documents

Click  Download to retrieve a copy, or  Delete to permanently remove a document

3. Managing Feedback

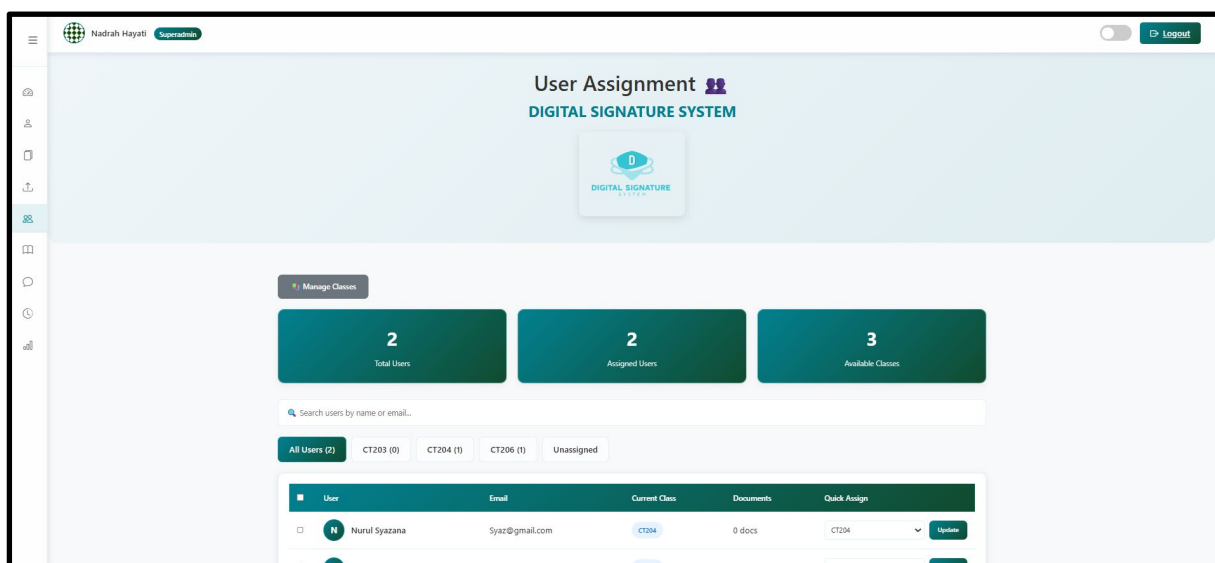

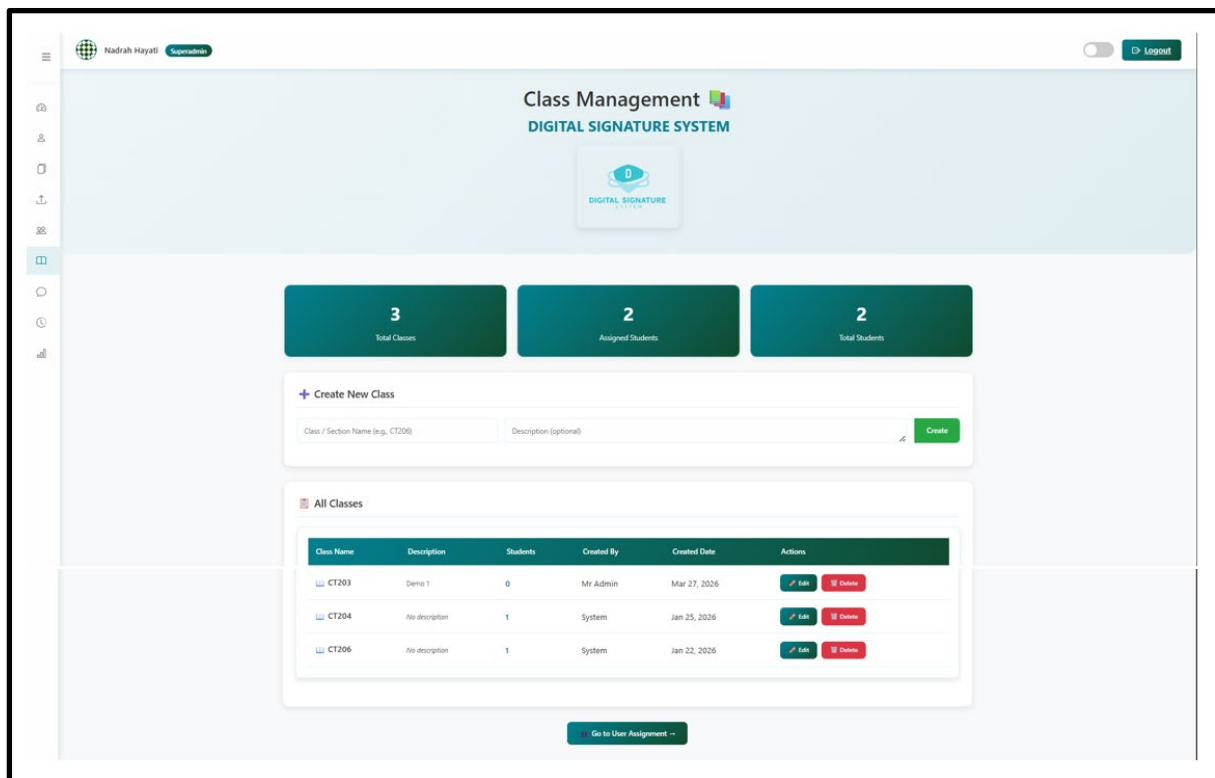

Click Feedback from the sidebar to view all feedback submitted by users and admins

Click  Status on any entry to update it to Read or Resolved

Click  to delete a feedback entry

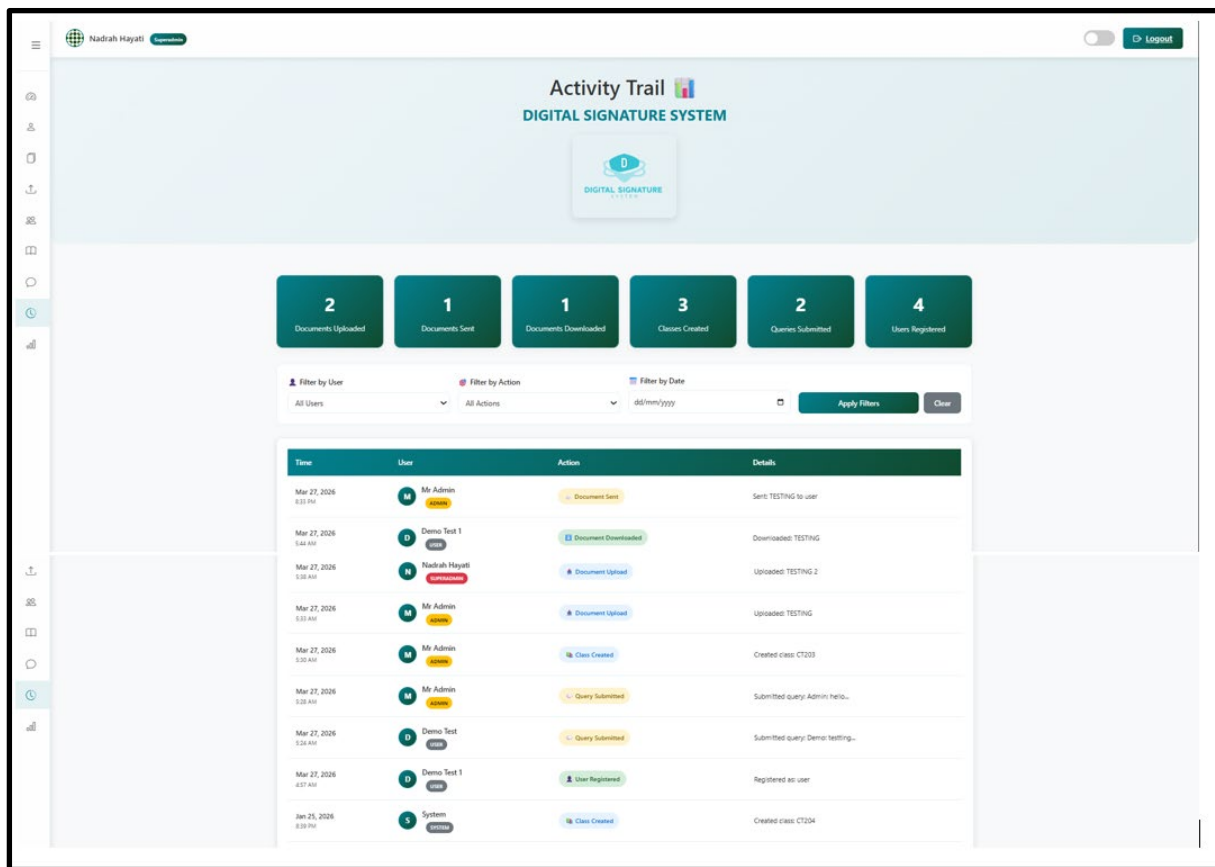

4. Managing Classes and Users

Superadmin has the same class and user assignment capabilities as Admin

Additionally, Superadmin can access the Activity Trail and Reports which Admin cannot

5. Monitoring Activity Trail

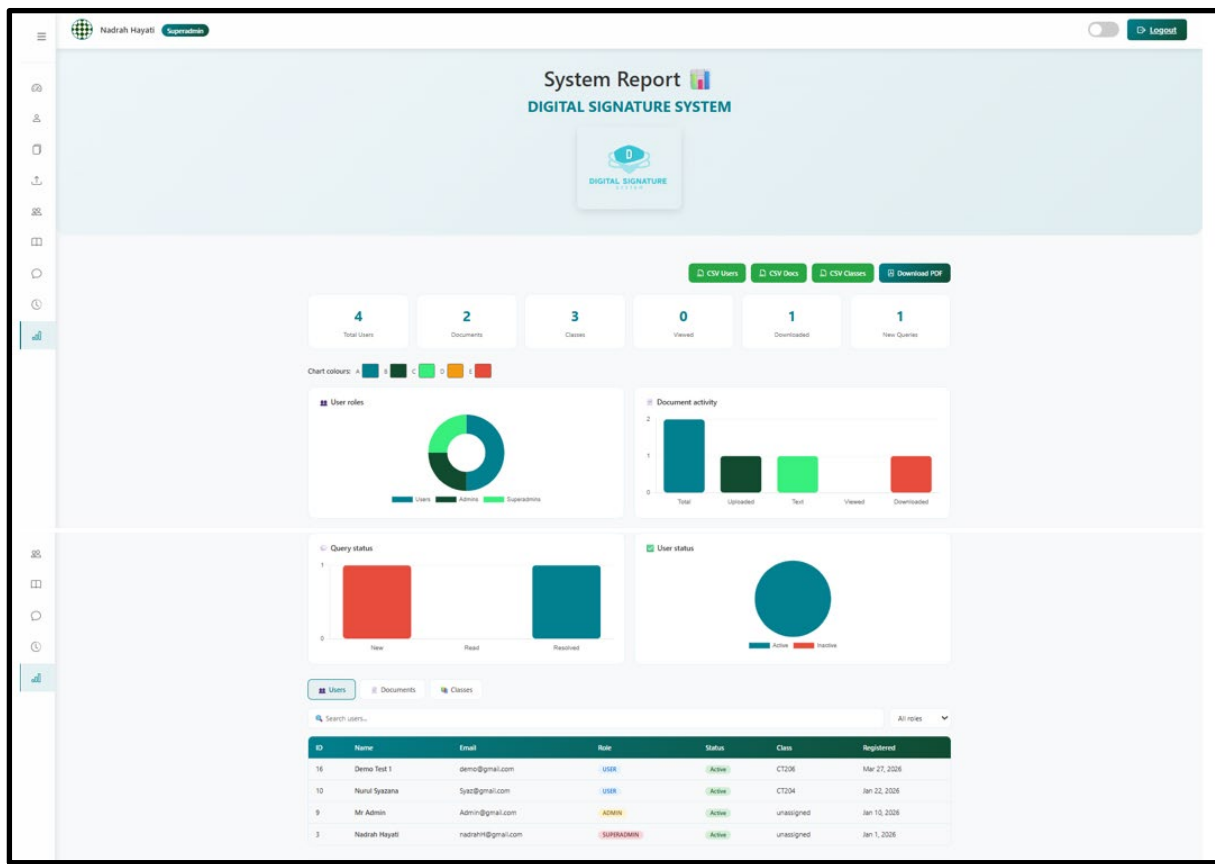

Click Activity Trail from the sidebar

View a chronological log of all system events — document uploads, sends, views, downloads, class creations, feedback submissions, and user registrations

Use the date and action type filters to narrow down results

6. Generating Reports

Click Reports from the sidebar

View the summary stat cards and four charts at the top

Use the colour pickers to customise chart colours if needed

Switch between the Users, Documents, and Classes tabs to browse detailed data

Use the search bar on each tab to filter records

Click CSV Users / CSV Docs / CSV Classes to export individual tables, or Download PDF for a full formatted report

7. Uploading and Signing a Document

The screenshot shows a web application interface for uploading and signing documents. At the top, there's a header with a user profile 'Mr Admin' and a 'Logout' button. The main heading is 'Upload & Sign Document'. Below this is a central form with the following fields:

- TAJUK (Title) ***: Text input with example 'e.g. ONLINE CLASSES'.
- Kepada (To) ***: Text input with example 'e.g. DEGREE STUDENTS'.
- Melalui (From)**: Text input with example 'e.g. LECTURER OF FOM'.
- Internal Notes (not shown in memo)**: Text area.
- Memo Content Source**: Two buttons: 'Upload Word Document' (green) and 'Enter Text' (light blue).
- Choose File**: A button next to 'No file chosen'.
- Supported: docx files only**: A note below the file selection.
- Sign & Generate Memo PDF**: A large green button at the bottom of the form.

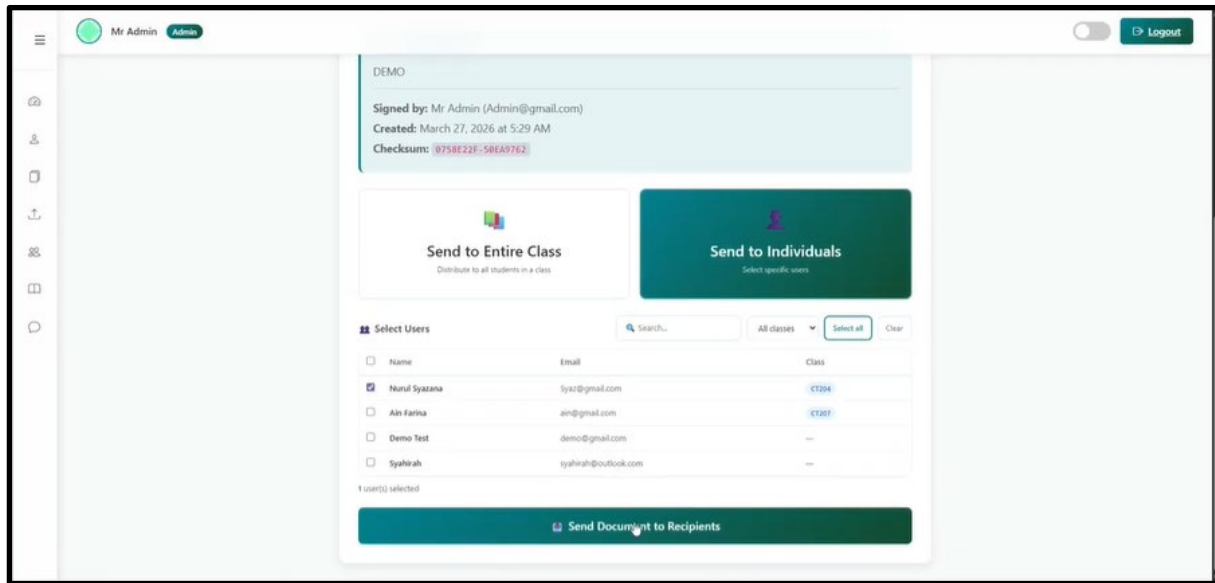

Click Upload from the sidebar

Enter the memo subject and fill in the document details (Kepada, Melalui, Description)

Either type the document content directly or upload a Word file

Click Submit — the system will automatically generate a digitally signed PDF with an embedded QR code

8. Sending a Document

Click File List from the sidebar

Find the document you want to send and click  Send

Choose Send to Entire Class and select the class from the dropdown, or choose Send to Individuals and search/filter/select specific users

Click Send Document to Recipients
